What You Need To Know About Skywest Airlines

It is pretty incredible how much of a significant difference Skywest airlines can have, of course you have to think about certain factors.

International airlines including Delta have partnerships with Skywest Airlines which is a leading regional airline that primarily serves the West Coast. Gradual growth through the years has led to the airline serving a great number of passengers daily that began in 1972 as a small airline in Utah. Now, let's discuss some cool things about Skywest Airlines.

"Safety First" is not just an empty slogan at Skywest Airlines. They are proud of their outstanding safety record. Their accident rate is relatively low and, with more than thirty-six years of service and over 1,550 flights daily, they have never been cited for any fatal accidents. Their fleet of aircraft is exceptionally reliable and up-to-date. These aircraft, which are inspected at the minimum of one time each week, include: Brasilia EMB120 ER, Canadair Regional Jet 900, Canadair Regional Jet 700 ER, and the Canadair Regional Jet 200. Of course, as many people know but still have trouble believing, flying is statistically much safer than driving, so it's actually safer as well as faster to choose a regional airline for your trip rather than taking your car.

Tickets can be obtained through a partner for a Skywest Airlines flight. Due to the fact that Skywest operates at the will of their partners United, Alaska, Delta, and AirTran Airlines, they don't issue tickets directly or take reservations. Call the airlines, go to their websites or visit their ticket counters to make a reservation. Skywest flights may also be registered through a travel agency or low cost broker. Be sure the company or website you are dealing with is legitimate if you are not dealing directly with an airline.

Regardless of whether or not you book a flight through Skywest Airlines or any of the airlines, when looking for a budget friendly flight, there are a few ways to proceed. A number of times partners of Skywest will advertise special prices and miscellaneous offerings for vacation units. You could also go to one of the major online travel sites, where you can simply enter your dates and destinations and get back a list of the cheapest available flights. One airline isn't better than another when looking for the best specials; rather it is discovering the best deal possible for where you want to go. At times you can receive a great packaged price if you perhaps need a hotel or a rental car.

Travelers all over America are now discovering how much more convenient it is to fly on a regional airline such as Skywest than to travel by car. With the rising cost of fuel and difficult economic times, people are also cutting back on longer trips, which is another reason regional airlines are getting more popular. Among the regional airlines, you will find that Skywest Airlines is foremost in the trend of more people discovering regional airlines.
